## Welcome

Thank you for choosing a product from Funkwerk Dabendorf! This Quick Guide leads you through the initial set-up of the STEREO MUTE BOX. Installing the STEREO MUTE BOX in your vehicle requires specialized expertise; we therefore recommend that the installation is carried out by an authorized dealer. Comprehensive operating instructions are available on our homepage [www.fwd-online.de](http://www.fwd-online.de). Do you have questions? Just call us. **Hotline: +49 (0) 3377 316-233**

## Contents

- STEREO MUTE BOX
- ISO cable for connecting the STEREO MUTE BOX to the vehicle
- Quick Guide
- Safety information

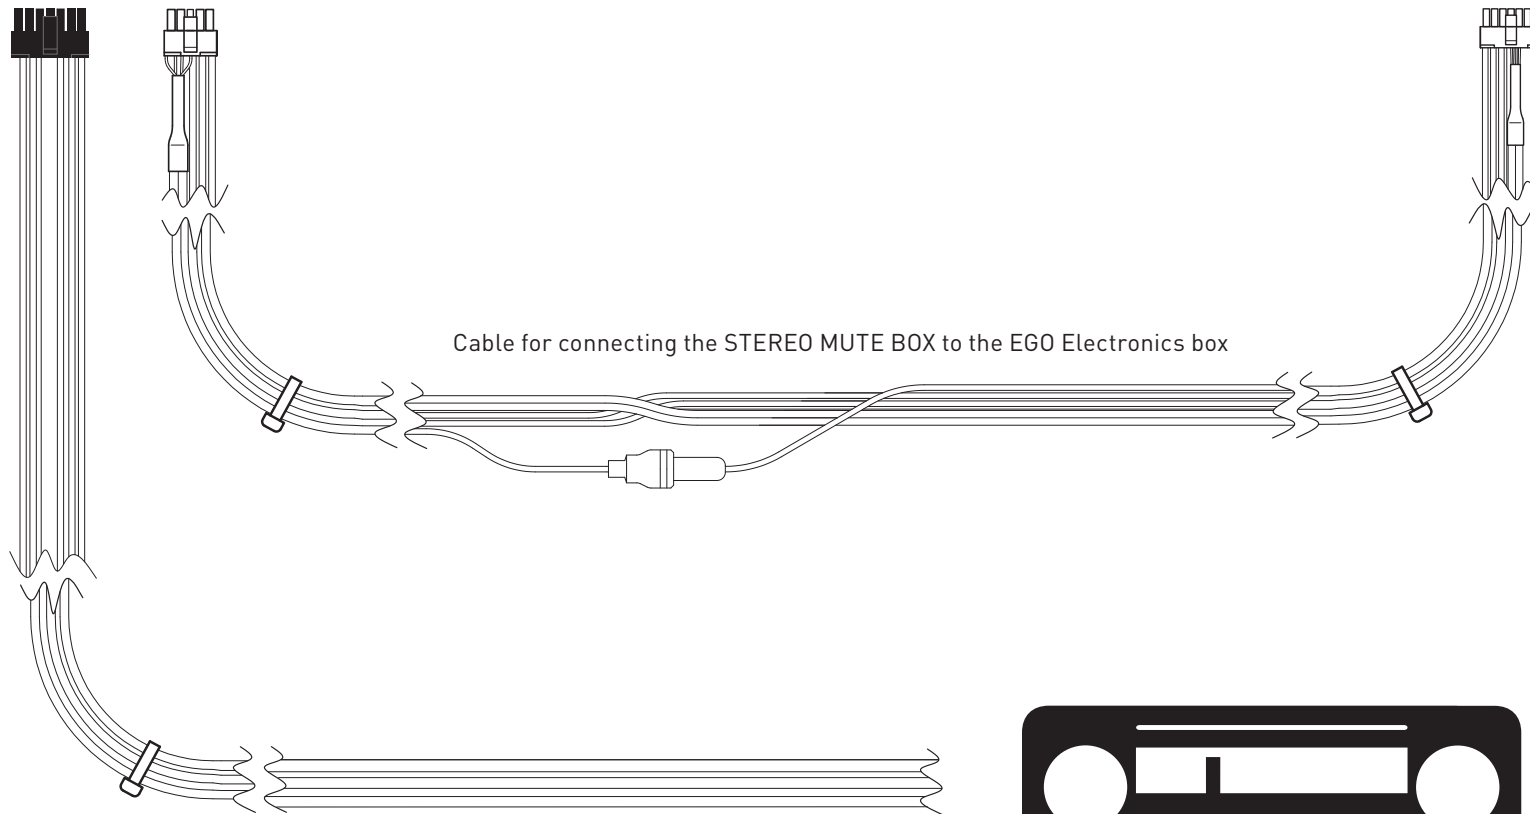

## Product characteristics

- The car radio is muted during conversation and audio streaming.
- Telephone calls are directed to the front speakers.
- Stereo quality sound is reproduced on the front speakers.
- The STEREO MUTE BOX mutes the sound coming from the rear speakers during conversation and audio streaming.

In addition to phone calls and Bluetooth® audio streaming (A2DP), the EGO TALK, FLASH, LOOK, and DRIVE models enable music to be played from a MP3 player connected to the EGO Electronics box line-in jack.
